

Strategy Overview

As of 3/31/24

Shariah is a long-term tactical growth strategy focused on capital appreciation with a mandate to restrict specific holdings based on the religious considerations of Shariah law. The strategy invests in leading growth stocks during favorable equity environments and scales to cash to preserve gains when bear market risk is high. The strategy adheres to a flexible investment mandate that allows for allocation shifts that range between 0%-100% exposure to equities. Positions are managed (purchased and liquidated) through a proprietary stock scoring system with faith-based considerations designed to build a comprehensive growth portfolio.

Primary Objective
Long-Term Growth

Secondary Objective
Faith-Based Considerations

Asset Allocation Range
Tactical allocation shifts based on market conditions: 0%-100%

Active Management for a Changing Market

- People are living longer, and the road to financial security is only getting more complex. Investors require thoughtful solutions that properly balance the **financial tradeoff between portfolio growth and peace of mind**.
- We believe a **thoroughly researched and systematic investment process** will outperform over time. Our research shows that markets and securities reward certain factors and penalize others.
- To capitalize on the positive factors, we employ a **market exposure model and a security selection model based on fundamental rationales**. These rationales are confirmed by thorough quantitative analysis, are systematically implemented and complemented with extensive risk controls.

Investment Process

NorthCoast seeks long-term growth with downside risk protection through the implementation of a systematic 3-step process

1

Determine Equity Exposure

Goal to reduce volatility and mitigate significant losses by shifting to cash during market declines

2

Select Stocks

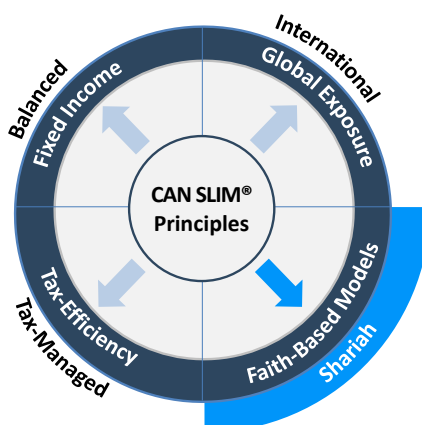

Participate in market growth by investing in top-scoring risk-adjusted growth stocks

3

Manage Risk

Monitor daily risk controls such as volatility, industry exposures and sell stops

Constructing a Faith-Based Tactical Portfolio

NorthCoast provides strategies to support investor goals

- Utilizes investment principles built from the CAN SLIM® Investment Program
- Customized mandate to fulfill faith-based considerations by eliminating positions from the following industries: Casino & Gambling / Alcohol & Tobacco / Biotechnology / Aerospace & Defense. Other restrictions include Abortifacients / Advertising / Cable TV / Entertainment / Financials / Food Products / Hotels / Internet Retail / Land Mines / Leisure / Media / Military / Payday Loans / Pawnshops / Restaurants / Social Injury / Software / Stem Cell / Telecommunications / Video Violence

Important Disclosure Information

Past Performance is not indicative of future results. All investments involve risk, including loss of principal. NorthCoast Asset Management (NCAM) claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. NorthCoast Asset Management is a d/b/a of, and investment advisory services are offered through, Connecticut Wealth, LLC, an investment adviser registered with the United States Securities and Exchange Commission (SEC). Registration with the SEC or any state securities authority does not imply a certain level of skill or training. More information about Connecticut can be found at www.connectuswealth.com.

Performance results shown from August 1, 2013 through May 31, 2014, are the actual results based on widely accepted performance standards and represent the net composite time-weighted return for the strategy. Performance results from June 1, 2014 through October 31, 2014 are those of a single-account composite managed according to the dictates of the strategy. Since November 1, 2004, actual performance results are based on widely accepted performance standards and represent the net composite time-weighted return for the strategy. Returns are presented net-of-fees. Net-of-fee returns are reduced by trading costs and the portfolio's actual management fee. Valuations are computed and performance is reported in U.S. dollars. A complete list of composite descriptions is available upon request. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. To obtain a compliant presentation for the associated strategy, please contact one of our advisors at 800.274.5448.

Single account composite performance results reflect the results of actual trading using a single client account managed in accordance with the dictates of the program. Other accounts are excluded to prevent additions, withdrawals and client mandated customizations from biasing the performance results. However actual client accounts are not insulated from these factors. Therefore actual client accounts may have experienced investment results during the corresponding time periods that were materially different from those portrayed in the model. Account statements for the single account for the period are available for inspection upon request.

This material is for informational and illustrative purposes only and should not be viewed as a recommendation or a solicitation to buy or sell any securities or investment products or to adopt any investment strategy.

CAN SLIM® Shariah is a long-term growth strategy focused on capital appreciation with a mandate to restrict specific holdings based on the religious considerations of Shariah law. Faith-based strategies invest in line with certain principles, usually using negative screening to avoid investing in companies whose products and services are deemed morally objectionable by the investor or certain religions, international declarations, conventions or voluntary agreements. The screening process can be subjective and should not be considered exhaustive. CAN SLIM® Shariah is a sub-strategy of the CAN SLIM® investment program.

Benchmarks - Aggressive Competitor Avg = Morningstar Aggressive Allocation Category Average. Aggressive allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. These portfolios tend to hold larger positions in stocks than moderate-allocation portfolios. These portfolios typically have 70% to 90% of assets in equities and the remainder in fixed income and cash. Tactical Competitor Avg = Morningstar Tactical Allocation Category Average. Tactical Allocation portfolios seek to provide capital appreciation and income by actively shifting allocations between asset classes. These portfolios have material shifts across equity regions and bond sectors on a frequent basis. To qualify for the Tactical Allocation category, the fund must first meet the requirements to be considered in an allocation category. Next, the fund must historically demonstrate material shifts within the primary asset classes either through a gradual shift over three years or through a series of material shifts on a quarterly basis. The cumulative asset class exposure changes must exceed 10% over the measurement period. The Shariah Benchmark is the S&P 500 Shariah Index. The S&P 500® Shariah includes all Shariah-compliant constituents of the S&P 500, the leading benchmark for the U.S. equity market. The index is designed for investors who do not want to breach religious norms in their passive investing strategies.
